Lukasz Luminski

Lead Frontend Developer - Vue.js | TypeScript | Storybook | Vitest
Wrocław, Dolnośląskie, Poland

Summary

I have a genuine passion for creating visually appealing and interactive web experiences.

I work mostly with Vue.js, its frameworks and libraries.

Experience

NOVOMATIC

3 years 8 months

Lead Frontend Developer

September 2024 - Present (1 year 11 months)

- Leading the architecture and development of a complex web application, using Vue 3 and Quasar Framework, from initial planning through to deployment
- Integrating with REST APIs and implementing responsive layouts, form validation, role-based access control and dynamic routing
- Managing a team of 3–4 frontend developers, providing technical guidance, conducting code reviews and ensuring adherence to best practices
- Collaborating closely with product owners, designers and backend developers to define requirements, deliver features and maintain a high-quality user experience
- Creating a custom component library with Storybook, including reusable UI elements tailored to the project's needs, ensuring consistency and reducing development time

Frontend Developer

December 2022 - Present (3 years 8 months)

- Developing web applications using JavaScript frameworks (mostly Vue.js) and TypeScript
- Using Vuex, Vue Router and various libraries, e.g., BootstrapVue, Vuetify and Quasar
- Building components in Storybook
- Writing unit tests in Vitest

- Partially designing UX and UI
- Writing supporting documentation

Amusys Production Sp. z o.o.
